Prayers for World Peace

Lord,
Lead us from death to life,
From falsehood to truth.
Lead us from despair to hope,
from fear to trust.
Let peace fill our hearts, our world and our universe.
Let us dream together, pray together and work together,
To build one world of peace and justice for all.

Prayer before Class

God made the sun,
And God made the trees,
God made the mountains,
And God made me.

Thank you dear God,
For the sun and the trees,
For making the mountains,
And for making me.

Prayer after Class

Thank you God for the day that's been,
for teachers, parents and friends I've seen,
Who walk unwaveringly by my side,
As I flow along with the tide.

Now before I run to play
Let me not forget to pray
To God who kept me through the day
To God who will see me through the night.

Prayer before Meal

Our hands we fold,
Our heads we bow,
For food and drink,
We thank God now.

Promise Yourself

To be so strong that nothing
can disturb your peace of mind.

To talk health, happiness, and prosperity
to every person you meet.

To make all your friends feel
that there is something in them.

To look at the sunny side of everything
and make your optimism come true.

To think only the best, to work only for the best,
and to expect only the best.

To be just as enthusiastic about the success of others
as you are about your own.

To forget the mistakes of the past
and press on to the greater achievements of the future.

To wear a cheerful countenance at all times
and give every living creature you meet a smile.

To give so much time to the improvement of yourself
that you have no time to criticize others.

To be too large for worry, too noble for anger, too strong for fear,
and too happy to permit the presence of trouble.

To think well of yourself and to proclaim this fact to the world,
not in loud words but great deeds.

To live in faith that the whole world is on your side
so long as you are true to the best that is in you.

Our Values

Our Markers

RPS Markers – what sets us apart?

1. Symbiotic Learning

Collaboration is at the core of Symbiotic Learning at RPS, a methodology where children, teachers and other stakeholders come together to create learning that is valuable. Symbiotic Learning often blurs the line between the teacher and the taught, offering a unique understanding of how learning can be shared and derived from anything and anyone. At RPS, we strive to learn from each other and build a mutually beneficial relationship that is brought about by a variety of strategic tools such as group discussion, project based learning, debates, think-pair-share, interviews, surveys etc. Symbiotic Learning fosters among children personalised learning and encourages them to apply their individual thinking thus strengthening their conceptual understanding at the end of their learning journey.

Symbiotic Learning is depicted through the colour light yellow as it stands for creativity and collaboration. All the events planned by the school in an academic year which drive Symbiotic Learning are thus represented in light yellow.

2. Design Thinking

The rationale behind Design thinking as a pedagogy aims at creating and facilitating future innovators and breakthrough thinkers. It is about creating innovative and collaborative workflows engineered to tackle problems and prototyping to discover new solutions. At RPS, integrating design thinking with our core strength of experiential learning, we have noticed that the level of engagement and ownership of learning is exceptional. While the children are learning to come up with solutions to real world problems, they are also developing highly valuable skills such as empathy, the ability to collaborate, to deal with ambiguity and to create.

The colour orange associates with alertness and thinking. All events planned by the school in an academic year encouraging children to think critically in a structured manner are represented in orange.

3. Samyukti – Emotional Wellness

At RPS, we believe that developing the emotional quotient (EQ) is as important as developing the intelligence quotient (IQ) for both teachers and children. The social-emotional well-being program, Samyuktat RPS schools is designed to equip every child with life skills that will enable them to deal with the challenges of life in today's diverse world. The emotional wellness program focuses on building social skills, emotional awareness and management, self-awareness and management to maintain student well-being. Samyukti, also believes in the value of giving back to society and actively engages our children in community outreach programs. Several other programs such as yoga, karate and sports help them establish a strong connect with their body, mind and soul. We encourage the children to introspect and build a positive environment for them to thrive happily at school.

The colour sky blue creates a sense of well-being and is soothing to the mind. All the events planned by the school in an academic year aimed towards building emotional wellness in children are represented in Sky Blue.

4. Vasundhara Program – Environmental Consciousness

There is a significant difference between environmental awareness and environmental consciousness. The school works towards developing a sense of responsibility and purpose in children towards their environment. The school leads by example by strictly following the Green School Policy. Children actively participate in drives and awareness programs to ensure the learning is spread to the larger society. We have a Green School Committee in school that works relentlessly to make our schools plastic free. Together we work towards segregation of waste, recycling, increasing the flora and fauna, organising cleanliness campaigns etc.

The colour light green is related to nature and the environment. All the events planned by the school in an academic year working towards building environmental consciousness in children as well as the society are represented in green.

School Houses

Pupils of the school have been divided into the following four houses:

House	Colour	Significance
VIVEKANAND	Red	VIVEKANAND: the incomparable, unequalled in quest for excellence. As Vivekananda famously said, "Take up one idea. Make that one idea your life – think of it, dream of it, live on that idea. Let the brain, muscles, nerves, every part of your body be full of that idea and just leave every other idea alone. This is the way to success."
GANDHI	Green	GANDHI: the non-dual, the one who is matchless, peerless, with a single, unchanging vision. Mahatma Gandhi is our inspiration. He showed inexhaustible strength, tolerance, patience, and determination to achieve freedom. He is the ultimate leader.
TAGORE	Blue	TAGORE: the infinite, limitless, endless possibilities. Constant search and an unquenchable thirst for higher and higher possibilities. TAGORE is our inspiration. He was limitless in his possibilities to extend compassion to most downtrodden. He is a true role-model. That same quality of limitless possibilities we want to imbibe in us, in everything that we think and do.
KALAM	Yellow	KALAM: the undiminishable, inexhaustible spirit. Ever bouncing back and not cowed by obstacles, to achieve what we set out to do. A.P.J KALAM;- is our inspiration. He showed inexhaustible strength, tolerance, patience, and determination to achieve success. He is the ultimate leader. We want that inexhaustible spirit to pervade through us in whatever we set our eyes on.

Students are grouped into the four Houses above. Each House is headed by a House Mistress (designated teacher) and a House Captain and a Vice Captain.

Little Things that Matter the Most

We learn by doing and reflecting on what we do. – John Dewey

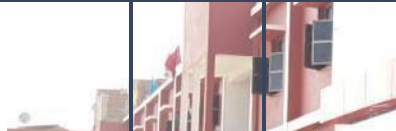

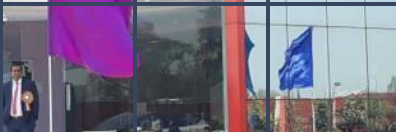

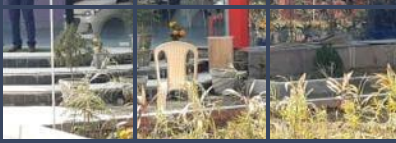

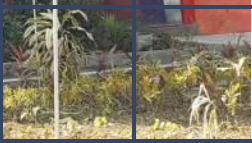

Let's join the dots and complete one shape at a time as and when instructed by your class teacher. Use this shape completed by you to write the answer to the question asked by your teacher.

Some of the questions to reflect upon are –

1. Did you make someone feel that there is something special in them?
2. Were you an enthusiastic and cheerful learner?
3. Did you make an effort to improve on something you are not good at?
4. Did you promise yourself to think only the best in yourself and others?
5. Did you help someone selflessly?
6. Did you pay gratitude for all that you received?
7. Did you finish what you started?
8. Did you respect time and work diligently?
9. Were you as enthusiastic about the success of others as you are about your own?
10. Did you meet every living creature with a smile?
